Seasonal Programs

Youth, adult, alpine, snowboarding, telemark, bumps, powder, free riding, single and multi-day…Monarch is offering it all this year. Pick the program that's just right for you and we'll help take your mountain experience to the next level.

Youth Programs

Our seasonal youth programs are for 3-15 year olds and are offered to skiers and snowboarders. As students grow we know they'll have a place to keep learning as they progress through our programs. There is a program for everyone in your family from your pre-schooler to your teenager and even for you. Monarch is offering adult programs in conjunction with our Wednesday Caterpillar program, our Friday Junior Butterfly program, and our Saturday Monarch Explorers program so you can be improving your own riding while your child is skiing.

CATERPILLARS - For skiers ages 3-4 more info & registration form . Please click here for the Ski School Release Form . Review of Rental Types & Lesson Levels .

Monarch's Caterpillars is designed for 3 and 4 year old skiers. Caterpillars is an introduction to skiing based on the reasonable expectations of three and four year olds in a small group setting. The program consists of four, 2.5 hour sessions on Wednesdays. Instructors will work with students to explore the sport of skiing and help instill an enthusiasm for the winter play environment. We will play a lot of games and take rest and bathroom breaks as needed. Some class time may occur inside due to weather or other considerations. During these times instructors will be facilitating comfort with equipment and continued muscle memory training, through indoor movements. Students will be exposed to beginner terrain and the surface lift that they will be independently riding.

Program Dates & Price

January 8, 22, 29 & February 5, 2014
(Wednesdays from 12:45 to 3:15) $215.00

Adult Programs

Monarch's adult seasonal programs are offered as a four week session. You can sign up for the whole program and take advantage of the progression that comes from weekly clinics, or you can simply sign up for individual days. Each program is designed for a specific population and will help you achieve a high level of proficiency in the discipline of your choice.
